### SUMMARY

Full stack developer with 3+ years building web products end to end — from responsive, accessible interfaces to the Laravel and MySQL backends behind them. Experience spans small business sites through to large corporate platforms, with a focus on performance, clean architecture and code the next developer can maintain.

### EXPERIENCE

**Full Stack Developer** 2024 — Present  
**Freelance / Contract**

- Design and ship end-to-end web products for clients across Nepal and Japan.
- Build with Laravel, Vue.js and MySQL; handle deployment, DNS and ongoing maintenance.
- Work directly with clients to scope requirements and deliver against fixed timelines.

**Web Developer** 2023 — 2024  
**Prabidhi Lab**

- Built and maintained corporate websites and internal tools used daily by staff.
- Led front-end rewrites that improved page load and reduced template duplication.
- Mentored two junior developers on Git workflow and code review.

**Junior Developer** 2022 — 2023  
**Agency work**

- Started with WordPress theme development and PHP maintenance.
- Grew into full front-end ownership of client projects.

### TECHNICAL SKILLS

|            |                                                           |
|------------|-----------------------------------------------------------|
| Frontend   | HTML5, CSS3/SCSS, JavaScript (ES6+), Vue.js, Tailwind CSS |
| Backend    | PHP, Laravel, CodeIgniter, CakePHP, Python, REST APIs     |
| Data & CMS | MySQL, WordPress, Joomla, Magento                         |
| Tooling    | Git, Figma, Linux / CLI, Lighthouse                       |

### SELECTED PROJECTS

**E-commerce Platform**  
Laravel · MySQL · Stripe — multi-vendor storefront with payments, inventory and an admin panel. Handles 200+ orders a month across 12 vendors.

**Analytics Dashboard**  
Vue.js · Laravel · Chart.js — real-time reporting with role-based access and CSV export. Cut weekly reporting time from four hours to minutes.

**Corporate Website**  
WordPress · PHP · ACF — custom theme with a block-based editor, letting the marketing team publish without developer help.

### EDUCATION

**Bachelor's in Computer Science & IT** TODO: years  
**Your university name**
